

JAMA

Last march I travelled through Ecuador and encountered this beautiful village, Jama. Back home, I heard of its destruction by the earthquake on April 16. The following photos were on sale at R57 art space in Zurich on August 6 and 7, 2016. I spent the benefit of the sales into prints (20x30 cm, 3 copies per photo) and organised an exhibition in Jama with free ceviche on March 5, 2017. After the event, I donated the hundreds of photos to the people.

Produce una inmensa tristeza pensar que la naturaleza
