

EXHIBITION IN JAMA

Last march I travelled through Ecuador and encountered this beautiful village, Jama. I took more than a hundred photos of its houses and people. Back home, I heard of the devastating earthquake on April 16, destroying most of the houses. In order to raise money to donate my photos to the people of Jama, I organised a exhibition at R57 art space in Zurich on August 6 and 7, 2016. I spent the benefit of the sales into prints (20x30 cm, 3 copies per photo) and organised an exhibition in Jama with free ceviche on March 5, 2017.
